

Incident Response Runbook

Severity Levels and Acknowledgement Times

All P1 incidents must be acknowledged within 15 minutes of the alert firing.

P2 incidents must be acknowledged within 1 hour during business hours.

P3 and P4 incidents may be triaged during the next business day.

Incident Commander Role

The incident commander role rotates weekly and is assigned via the on-call calendar.

The current incident commander has final authority to declare an incident resolved.

Post-Incident Reviews

Post-incident reviews are required within 5 business days for any P1 or P2 incident.

Reviews must be blameless and focus on process gaps, not individual performance.

Customer Communication

Customer-facing status page updates should be posted within 30 minutes of a confirmed P1.

Status page updates must avoid speculating on root cause until it is confirmed.
